2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The institution is located in semi-rural area, surrounded by tea gardens and backward rural areas. Majority of the students belong to the tea gardens and villages. Hence proper mentoring of the students is very important. The Administration, together with IQAC has taken up the initiative of implementing the process of mentoring of students. Firstly, the students are divided on the basis of streams of studies. After that, they are categorized on the basis of their subjects. The Head of the Departments of the institution are then allotted the responsibility of assigning mentors by classifying the students into various groups. Before forming the groups, the teachers of the respective departments conduct certain evaluations related to subjects, communicate personally with the students, go through their previous performances and then finally hold group discussions and meetings among the students and teachers. There are various steps involved in mentoring the students of the institution. • The Mentors have to maintain and update the basic particulars and performance of the students like class tests, weekly attendance, seminars, home assignments, etc. Moreover, their attitudes and behavior in the campus or any drastic change in the students' behavior have also to be recorded by the mentor. • After the required information about the students is collected, the Mentors have to provide guidance and counseling, as and when necessary. For example, if a student is a slow learner, it is the responsibility of the Mentor to find out the causes of his slow learning and if possible, innovate new methods and techniques to teach him/her instead of neglecting that particular student. Similarly, an advance learner has to be shown ways by which he can choose his paths of life wisely. • If the need arises, the Mentors have to meet the students individually or in small groups. The Mentors should communicate with the students in such a way that they feel free to discuss any problem they are facing. • If there arise certain cases where it is not possible for the institution to solve the problem alone, the Mentor can suggest special meetings of the parent with the Principal or the Head of the Department and the Mentor himself/herself. • If a student is struggling or found to be weak in a particular subject, it is the duty of the mentor to provide proper guidance or suggest the concerned teacher regarding the difficulty faced by that particular student. • It is highly expected of the Mentor to render equal treatment or behavior to students of varied caste, academic and financial backgrounds.
