WORLD ENVIRONMENT DAY CELEBRATION  
(Cleanliness & Plantation Drive)  
(5.06.2025)

World Environment Day, celebrated every year on June 5, is one of the most important international occasions devoted to promoting environmental preservation and sustainable living. It's a day when individuals, communities, and governments come together to promote eco-friendly actions and encourage a lifestyle that respects the Earth. From organising tree plantation drives and clean-up campaigns to hosting awareness programmes, the day reminds us that we all have a role to play in healing our planet.

One of the most impactful ways to raise environmental awareness is through catchy slogans and inspiring captions. Whether you're creating posters or social media posts or participating in school and community events, a powerful line can spark awareness, inspire action, and leave a lasting impression.

This year's campaign urges individuals and nations to reduce plastic waste, switch to eco-friendly alternatives, and support policies that curb plastic production. Plastic pollution has become a global crisis, harming marine life, polluting land, and entering our food chain. The 2025 theme reminds us that collective action can lead to cleaner oceans, healthier ecosystems, and a more sustainable future.

Cleanliness is a very important thing in our day to day life. Whether it's our home, workplace or public place, schools or colleges. It is one of the very basic needs of civilized lifestyle.

Mahatma Gandhi gave the slogan “ Cleanliness is Godliness”

NSS Unit Mariani College, Mariani organised World Environment Day in collaboration with “Students For development” on 5<sup>th</sup> June 2025.

The programme began at around 10:00 am. Firstly we felicitate our respected principal Horen Gowalla sir with a Phulan Gamusa and requested him to deliver a inspiring speech for the students. Then our faculty members also delivered speech on environment day. Then all the students made line and we did a awareness rally on world environment day. After the rally we came to the college and clean the whole commerce, science and arts campus respectively. Teachers also support us in this drive. Then we plant few trees in the campus to make it green and clean. There are more than 30 NSS volunteers as well as our union members played this drive beautifully.

The programme successfully ended at around 1:00 pm
