EARTH HOUR DAY

(22.03.2025)

Earth Hour was launched by the World Wide Fund (WWF) in 2007. It aims to encourage individuals and organizations to give an hour for the Earth by switching off non-essential electric lights from 8.30 to 9.30 p.m. IST as a symbol of commitment to the planet.

NSS unit Mariani College, Mariani organized an Earth Hour Day in our local area. All the students take initiative to celebrate this day. As the students have celebrated the day in their respective homes and their area. It was held only for one hour, 8.30 p.m. to 9.30 p.m. This celebration is done to reduce carbon emission by switching off all non-essential lights and make it more beautiful, and to absorb our universe's natural power by lighting candles. It has been organized beautifully and successfully ended at 9.30 p.m.
